

# Great Lakes Glia 2022

*Park Place Hotel & Conference Center*

*Traverse City, Michigan*

## POSTER SESSIONS

The poster sessions have proven to be a very successful venue at the *Great Lakes Glia* meeting. These sessions provide a unique opportunity for students and postdoctoral fellows to meet and discuss their research at length with senior scientists, many of whom serve on study sections. You can use posters from previous meetings, or you can get your Society for Neuroscience poster whipped into shape early.

Abstracts will be published and distributed along with the final schedule at the time of the meeting. Abstracts will be incorporated into the website. Everyone (faculty, postdoctoral fellows, graduate students, and staff) is invited to submit an abstract. The deadline for abstract submission is Sep 15. This will give us time to collate and send off to the printers.

Dr. Robert Skoff of Wayne State University will be in charge of posters. Please submit your poster abstracts to: [rskoff@med.wayne.edu](mailto:rskoff@med.wayne.edu)

*Abstract format:*            5 in (wide) x 4 in (high)  
   12 pt font  
   Line 1 – title  
   Line 2 – author(s)  
   Line 3 – affiliation(s)  
   Line 4 – start abstract text

*Poster boards:*            6 ft (wide) x 4 ft (high)

We have scheduled TWO poster presentation times to ensure adequate time for poster presenters to meet and discuss their research with meeting attendees.

Monday afternoon	3:30 – 4:30 pm
Monday evening	8:30 pm (refreshments will be provided)

**This year we again will have a contest for best posters, one for graduate students and another for postgraduate fellows with prizes. If you win, you can put it on your C.V.**

We encourage you to hang your poster up on Sunday afternoon, if you wish, and to leave it on display through Tuesday morning.
